A Front-End Developer offering 8 years of experience providing high-impact web solutions for diverse industry organizations. Skilled in developing and testing multiple web-based applications incorporating a range of technologies. Passionate about learning and development with a desire to apply skills to a larger development, eager to tackle more complex problems and continue to find efficient ways to maximize user efficiency.

Professional Experience

December 2021 - Present

Freelance Web Developer   Upwork (Los Angeles CA | Freelance)

- Built 2 interactive, single-page react apps that could scale with both increases in interaction complexity and volume.
- Created and maintained frontend code for a tourist website(seasonal updates, code refactoring).
- Actively studying modern technologies, languages and frameworks like Python, ethereum, web3.js etc, and have participated in 2 backend developments that required nodeJS, expressJS and MongoDB skills to get more practical experience. From early March 2022, using web3.js and other new skills that I newly acquired.

Project Example:

-Room-res(Hotel Booking Website): https://room-res.com/

September 2017 - December 2021

Front end Web Developer   SoftServe(Toronto ON, Canada | Contract to Full-time)

- Participated in landing and maintaining 2 large ecommerce projects collaborating with design, product, and back-end teams.
- Designed and implemented SEO strategies for user acquisition, driving acquisition up by an average of 120% each month.
- Maintained 3 react apps and websites under the direction of a UX manager and team lead.
- Worked in an Agile, collaborative environment to receive design requirements, peer programs, and test applications.
- Participated in some TDD works and QA tests with Jest and cypress skills.

Project Examples:

-Altitude sports(ecommerce website): https://www.altitude-sports.com/

July 2015 - September 2017

Front end Web Developer   Intelliware Development Inc (Toronto ON, Canada | Contract)

- Collaborated with 4 other skilled freelancers to develop 3 VueJS projects.
- Assisted in building 100% reusable code and libraries for future use.
- Optimized a reactJS web applications for maximum speed and scalability.
- Validated 100% of user input before submitting it to the back-end.

Project Example:

-Horselinc(Horse Service App): https://app.horselinc.com

July 2013 - July 2015

Web Developer   Pactera Technology International Ltd (Kowloon City, Hong Kong | Full-time)

- Delivered 5 projects of all sizes, creating solutions for consumer services with PHP frameworks.
- Implemented technical solutions to meet project requirements for the creation and the service.
- Assisted the development team in maintaining 3 landing PHP-based websites, and coded 2 websites with PHP frameworks(+ HTML/CSS/JQuery/MySQL)

Project Example:

-PMQ(tourism booking site): https://www.pmq.org.hk/

-Apartments at El Nido(accommodations booking&introduction site): https://aptelnido.com/

-SapNin (Information app, for SapNin Co Ltd)
